Heavy Duty Cleaners - Water Based Degreasers

The Degreaser - Water Based Degreaser

The Degreaser is a biodegradable, concentrated, quick-break formula designed for a wide range of hard surface cleaning tasks. It is generally safe for use on most surfaces. While its versatility allows for many applications, its high-powered cleaning action makes it particularly effective for heavy duty degreasing jobs, offering a cost-efficient solution.

X-Stream Degreaser - Water Based Degreaser

X-Stream is a water based degreaser with a high-grade surfactant system that is diluted 4:1 with water for most applications. It is a non caustic, non DG water based degreaser, with quick break properties for easy oil separation and low foam for easy rinsing. Suitable for use in hot or cold water pressure cleaners, spin wash machines, immersion tanks or for application by brush. It can be used on most surfaces not affected by water and is safe on paint work. Extremely versatile.

Heavy Duty Cleaners - Solvent Based Degreasers

Grease-Rid - Solvent Based Degreaser

Grease-Rid is a concentrated solvent degreaser formulated for professional use in the rapid removal of grease, oil, and tar. It is effective on a wide array of surfaces, including engines, machine parts, tools, driveways, and boat bilges. **Grease-Rid** is a non-flammable formula with a low evaporation rate, is water-rinseable and non-corrosive, making it safe for use on metals, including aluminum. It can be applied directly or used in immersion degreasing processes. **Grease-Rid** degreaser is designed to provide fast results and maintain a long tank life, making it a practical solution for maintenance and repair applications.

Heavy Duty Cleaners - Multi-Purpose Cleaners

Power Plus - Multi-Purpose Cleaner

Power Plus, originally developed for aircraft cleaning, delivers powerful, non-corrosive cleaning for a vast range of surfaces, from industrial metals to delicate fabrics. This biodegradable concentrate effortlessly emulsifies tough stains and grease, requiring minimal scrubbing and offering exceptional economy through high dilution. Safe and versatile, it's ideal for boats, machinery, interiors, and more, providing pristine results with spray application. Note: avoid dry glass and lead crystal.

Disinfectants

- Commercial Grade Disinfectant
- Bleach

Disinfectants

Sanifresh Pine - Disinfectant

Sanifresh is a very economical, commercial-grade disinfectant detergent that dilutes with 10 to 40 parts of water to disinfect and deodorize in one step. Containing 3% Quaternary Ammonium Compound, it effectively fights unwanted odors and leaves a fresh pine fragrance. Designed for easy rinsing and a no-residue surface, **Sanifresh** leaves a streak-free finish on ceramic and vinyl flooring. Ideal for disinfecting contact surfaces like countertops, food preparation areas, and doorknobs, simply mop and air dry for a fresh, clean result on tiled surfaces, finished timber, cork, and linoleum when diluted at 100 ml per bucket of water.

Pure White Bleach - 4% Chlorine

Pure White is an un-perfumed pure bleach without any additives. 4% active chlorine. Use for bleaching, cleaning, deodorising, and as a sanitising agent. Suitable for use in kitchen, laundry, bathroom and toilet areas. Restores the color of concrete and grout affected by mold and algae. Perfect for restoring the whiteness of crockery, especially coffee and tea cups and mugs. Great for removing food odor from plastic food containers. Use in food preparation areas as the perfect, fast acting, no residue, disinfectant. Dilution of 1:500 with water is recommended for treatment of pre cleaned surfaces.

- Kitchen / Hospitality

General Cleaning - Floor Cleaners

Top Floor - Hard Surface Floor Cleaner

Top Floor is a highly concentrated non-caustic hard surface floor cleaner. Suitable for use in automatic floor scrubbers, by mop and bucket application or spray and wipe spot cleaning. **Top Floor** is ideal for cleaning painted, smooth concrete and other hard surface workshop floors. With the exceptional performance of a synergistic blend of wetting agents, solvents and buffered alkalis. **Top Floor** is strong enough to clean the greasiest floors but remains safe to use around workshop equipment such as hoists and pallet racking without affecting paintwork or promoting corrosion. A much safer alternative than highly alkaline caustic floor cleaners. **Top Floor** is a safe, versatile and economical performer.

Fingertens Apricot Heavy Duty Hand Cleaner

Designed to be versatile, **Fingertens Apricot** is equally effective in removing greasy soils as it is with grimy dry dirt. Suitable for all automotive trades including panel beaters, motor mechanics, tyre fitters, engine reconditioners as well as all engineering occupations such as fitters, welders, fabricators, riggers etc. It is hard to find a pair of dirty hands from any occupation that **Fingertens Apricot** cannot clean. Being water based it can be applied to wet or dry hands and can tolerate the addition of minimal water during the washing process which increases its cleaning ability as well as enhancing overall economy. For best results apply Fingertens Solvent Resistant Barrier Cream before each work.

Hand Care Protect & Restore

Fingertens Solvent Resistant Barrier Cream

Fingertens Solvent Resistant Barrier Cream helps protect your hands from the ill effects of many industrial soils, solvents and solvent based materials. Fast drying, **Fingertens Solvent Resistant Barrier Cream** gives hands a secure non-oily, dry protective film. The emollients keep the hands soft and pliable, with a smooth velvety feel, without being sticky or slippery. It contains no silicone and will not transfer to work surfaces. Use wherever incidental contact with solvents, glues, bitumen is possible. Wherever prolonged exposure to irritant materials is expected, protective clothing should be used with **Fingertens Solvent Resistant**

Barrier Cream applied underneath and to all areas of exposed skin.

Bastion Premium Black Nitrile Gloves

Bastion Premium Black Nitrile Gloves offer superior barrier protection compared to latex and vinyl, with a robust 0.15mm thickness in both the finger and palm for enhanced puncture and chemical resistance. These latex-free, powder-free gloves feature a beaded cuff for added strength and liquid run-off prevention. Designed for optimal dexterity and grip, they boast a fully textured finish and a special dual-layer polymer coating: a slip coating inside for easy donning and an advanced grip coating outside, ensuring excellent handling even when wet. The black nitrile material also resists staining from inks and dyes, making them a practical choice for various professional applications. Perfect for mechanical work where extra finger sensitivity is required.

Milan Black Nylon Gloves - Black Sandy Foam Nitrile Palm Coating

These gloves feature a 13-gauge seamless breathable nylon shell. They have a double-dipped nitrile coating for superior resistance to both oil and water. The design offers excellent dexterity and abrasion resistance. A sandy foam nitrile second coat provides exceptional grip in dry, wet, and oily environments. Finally, elastic knitted cuffs ensure a comfortable and secure fit.

PPE/Safety - Leather Gloves

Santona Cow Grain Natural Leather Riggers Gloves

Crafted from quality cow grain leather, these gloves offer an excellent fit and high dexterity for comfortable handling. The innovative wing thumb design eliminates palm stitches, enhancing durability. A shirred elastic back ensures a superior and secure fit, while double stitching reinforces the gloves for increased protection and long-lasting wear. These gloves are manufactured to accurate EN420 sizing standards.
